Education Voters of PA plays a critical role in ensuring that education issues are a priority for lawmakers and voters throughout PA. When Harrisburg threatens to undermine the education of PA students, our trained advocates hold them accountable in communities in every corner of the commonwealth.

*For more than three decades, Michael Churchill, Esq. has devoted his career to fighting for equitable public education. He has led and continues to lead the Public Interest Law Center's education litigation and policy advocacy efforts, which have helped close racial gaps in schools, kept schools open, and challenged Pennsylvania's unconstitutional system of school funding.*
